2 of 2 people found the following review helpful. mylar not plasticBy Book readerI just received this today. I am a bit

disappointed (thus the 3 star rating) because the tool is made of mylar rather than a hard plastic. I looked in the description which was inconclusive as to the what it is made from. I thought I was purchasing a hard plastic style template. Perhaps I will change my review after I try it.0 of 0 people found the following review helpful. Five StarsBy A. AllardExcellent
