2 of 2 people found the following review helpful. Great Resource! By Bonnie R. I use this book regularly for creating the story times I do for my local library. It has some nice songs in it: topically very appropriate for what you would need but also what you want for the preschool age group: short, simple, catchy tunes and nice illustrations for creating felt fingerplays. The book seems expensive for a paperback but it is a thick book with a lot of fingerplays in it. In short, I would highly recommend this book for using to create story times. 0 of 0 people found the following review helpful. great stories for preschoolers and toddlers if you want to ...
