**Lynn Diel : Flat Plane Carving: The Nativity (Schiffer Book for Carvers)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flat Plane Carving: The Nativity (Schiffer Book for Carvers):

0 of 0 people found the following review helpful. Great instruction.By Steve BarberI hope to have these done for next Christmas! Great instruction.0 of 0 people found the following review helpful. Excellent how to carve bookBy jhorseVery well written for the beginner. I own many wood carving books. And upon flipping through this, I am impressed with each chapter is a figure to carve in full. Usually a couple are given, then outlines for the rest.0 of 0 people found the following review helpful. Five StarsBy Leonard RigsbyGreat step by step instructions with loads of pictures makes it easy to produce a nice carving

Many wood carvers have attempted and failed in carving the nativity, thwarted by the myriad details of so many

figures. Now, Lynn Diel brings a refreshing simplicity to the scene. He uses flat plane carving techniques on basswood to create a beautiful tableau that even a novice can successfully complete. Using over 250 color images, 4 patterns, and clear step-by-step instructions, the reader is taken through all the steps necessary to carve and finish each figure in the nativity: Mary, Joseph, Jesus and His creche, an angel, shepherd, the three kings, a camel, donkey, ox, and sheep. All of the easily obtained materials and tools needed for these projects are listed. Once the techniques are mastered, the reader will be able to create many nativity sets sure to be treasured by family and friends for years to come. This book will be inspiring for the novice and a joy for the experienced carver.

About the Author Lynn Diel is a self-taught carver and member of the Missouri Artisans Association. He teaches wood carving classes and authors articles about his craft.
