**Lyn Constable : Flower Arranging European Styles** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Flower Arranging European Styles:

Shows modern trends of flower arranging from France, Belgium, Germany, Holland and Italy, emphasizing straight stems and blocks of colour and texture as key design elements. This guide includes parallel arrangements, bouquets, hand-tied bunches, the Flemish period style and le style anglais.

From Booklist Filled with colorful images of striking floral compositions, Constable's guide presents a variety of formal arrangement styles. For each illustrated design, the structural concept and mechanics are described, from wires

and adhesives to foam or other necessary underpinnings. Plant materials and supplies are listed to help ensure execution of a very similar design. Brief histories are given for each type of style included, as well as a bit of basic instruction on elements of design, such as texture, form, space, color, and balance. A sound resource for the art and craft of flower arranging. Alice Joyce
