Paula Pryke : Flower Innovations before purchasing it in order to gauge whether or not it would be worth my time, and all praised Flower Innovations:

The 21 most popular flowers worldwide are featured in this book, with a graded selection of photographed arrangements for each flower, starting with simple bunches and posies and progressing to large-scale displays. Ideas include carnations in a cabbage "vase" and a poppy and pasta centerpiece.

About the Author Paula Pryke runs a successful flower business which has a reputation for innovative floral designs. She has been described as "the most brilliant florist in London". Paula runs a flower school in London and is the author of numerous best-selling books on the subject.
