Moniek Vanden Berghe : Flowers in Love II before purchasing it in order to gauge whether or not it would be worth my time, and all praised Flowers in Love II:

0 of 0 people found the following review helpful. Great bridal design book! By Greg This book by Belgium designer Moniek Vanden Berghe is another great example of her creative bridal bouquets and all out beautiful style. 4 of 4 people found the following review helpful. My favorite bridal bouquets By Judy Rivas I really love this book! The arrangements are stunning and not at all what you normally see around. I would recommend this book mostly for flower designers as it is not a step-by-step book. However, if you love flowers and would like your bridal bouquet to be different, this is the book for you... you can always show it to your florist for inspiration.

After having finished training in painting, ceramics and sculpture, Moniek Vanden Berghe focused on floral art. Her style is contemporary-modern. One of her main specialities is bridal work. With an eye for stunning detail, she designs, with great accuracy, bridal bouquets, floral purses, corsages, hair clips and tiaras... She also decorates the bridal table, the cars, the church and the bridesmaids in an elegant and harmonious way. This book offers 'bridal ideas' to florists and is an inspiration for anyone who's soon to be married and wants to have a flourishing party. This is an excellent addition to Moniek's first bestseller on the theme of love and marriage. Text in English, French and Dutch.
