Ray Mathews : Fly Paper for Kids: STICK with this airplane for hours of fun (Volume 1) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fly Paper for Kids: STICK with this airplane for hours of fun (Volume 1):

This book is for Dads, Moms, and Grandparents to get kids excited about flying! Grandparents will love this book because it is an all-inclusive package no extras to buy the airplane paper is in the book. And FLY PAPER FOR KIDS is the perfect size for mailing to friends or relatives. This paper airplane configuration has been successful, because of its ease of building and for just plain fun. The beauty of this airplane is its simplicity a must for small children. If a child can fold paper, he can make this airplane!
