Sue Heaser explains things clearly and tells you what products to use to get that "professional look". Good sized pictures make it easier to understand the steps involved in creating miniature food using different types of mediums. Check out Sue's other great books. She's definately talented when it comes to sculpting with polymer clay and teaching others how to do the same.0 of 0 people found the following review helpful. Love My Book!By CustomerThis book is perfect for beginners and in color!1 of 1 people found the following review helpful. great book to have!By Elissa Hishikawathis is great for a beginner as well as intermediate crafters.I had trouble getting the right scale for the food and she goes into a specific measurements that was very helpful.also fun to just look at.

This book contains an extensive selection of step-by-step projects for making miniature food items for the 1/12 scale dolls' house. The realistic-looking meals range from simple fruit, vegetables and bread to "celebration food" and banquets. A comprehensive section, featuring the step-by-step techniques of working with polymer clay, involves shaping the clay, mixing colours, texturing and finally, baking it. The necessary tools and materials are also detailed, as well as how to put them to their most effective use. Colour photographs show the finished items and display ideas and instruction are given, from bread baskets to a complete table setting.

About the Author Sue Heaser is an experienced and talented craft author who has worked in the field for over 20 years. She studied at art college and university, and was an archaeological illustrator before turning her versatile hand to craft writing, designing and teaching. Sue has written two polymer-clay books for Northlight, in addition to several books in a range of other media. *Crafts Beautiful*, *Dolls House World* and *Dolls House and Miniature Scene* are just some of the magazines she contributes to. Sue lives in Diss, Norfolk.
