**Melinda Coss : Needlework Masterpieces: 20 Projects from the World's Great Museums** before purchasing it in order to gage whether or not it would be worth my time, and all praised Needlework Masterpieces: 20 Projects from the World's Great Museums:

0 of 0 people found the following review helpful. Great Needlework ResourceBy Alaina L. PocockNice needlework but not my thing. Pictures are great and would be wonderful reference for someone who enjoys portrait needlework.2 of 3 people found the following review helpful. FanBy Bobbye G. JohnsonThis is a wonderful book of Needlepoint Masterpieces copied from museums. I do not feel that it is a book for the novice needleworker. The patterns are very complicated with many color changes and are large pieces when finished. The patterns themselves are wonderful. The Last Supper, the Mona Lisa, Waterlilies, Sunflowers, Angles, and ballerinas just to name a few. To the experienced needlecrafter, this book will make your hands itch just to get started on a new project. Fantastic book!1 of 2 people found the following review helpful. used books - great conditionBy Kindle CustomerThe book arrived quickly and in good comdition, as promised. Would buy more books from this supplier.

In this one-of-a-kind project book, Coss presents a spectacular gallery of great needlepoint designs--pictures, pillows, foot stools, panels, and other decorative objects that mirror the world's best-loved masterpieces by such great artists as

da Vinci, Goya, and van Gogh. Includes clear instructions and 80 color illustrations.
