Terry Rye : New Inspirations in Wedding Florals before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Inspirations in Wedding Florals:

There wasn't a whole lot of variation in the arrangements and they all required way too many tools to put together. I was also unhappy with the lack of center piece ideas. If you have even the smallest creative bone in your body, I'd go without this book. We totally winged my flower designs in the end and they were way more inspired than anything this book had to offer. 0 of 0 people found the following review helpful. Five Stars By Customer GREAT1 of 1 people found the following review helpful. Great instructions on making wedding bouquets and arrangements By SMK The instructions in this book are very detailed and complete. I highly recommend it for anyone who wants to learn how to create floral designs. While

all the examples in the book are geared towards wedding florals, the techniques can be used for any arrangements. I certainly will be trying some of these ideas on holiday arrangements.
