Norah Gaughan : Norah Gaughans Knitted Cable Sourcebook: A Breakthrough Guide to Knitting with Cables and Designing Your Own before purchasing it in order to gage whether or not it would be worth my time, and all praised Norah Gaughans Knitted Cable Sourcebook: A Breakthrough Guide to Knitting with Cables and Designing Your Own:

73 of 74 people found the following review helpful. lovely knitting book with gorgeous cable patterns (but why the small print?)By Marilyn lovely knitting book with gorgeous cable patterns. the important factor in this book is the SSE , stockinette stitch equivalent for each of the cable designs so one knows how wide the cable pattern is. The photos of the cables are clear and the directions are well written, both in graph form and word form. The reason for the four stars is because of the small size of the print and small size of the graphs, I will even say they are tiny. I am sure any knitter would have been willing to pay a bit more for a larger book in order to have bigger print for the directions

and graphs. Therefore for any pattern be sure to have a copy machine that enlarges the pattern so that you can read it easily. However this is an important book for any knitter who loves to knit cables. 1 of 1 people found the following review helpful. I like "the unexpected" in designs....enough of the straight forward patterns with an interesting twist ~By Terry Very Helpful - I love the way she looks at the Backside or these cable patterns and that she shows many ways to change the patterns and experiment with them...letting them grow in your work - I like "the unexpected" in designs....enough of the straight forward patterns with an interesting twist ~23 of 23 people found the following review helpful. Cable Me GobsmaekedBy KCarlyle This is the cable book that you wished every other cable book you ever purchased was AND it has usable projects in it, lots of them. Lovely useful wearable interesting projects. So even if you never intend to design your own its a bargain for the price. The technical parts roll up in a steady progression, building each new chapter on top of the last - THIS IS A MASTER CLASS. Making cables, varying cables, controlling cables, substituting cables, rolling around in a cabled fantasy. Norah explains the back of the cable how to make it reversible or interesting if not exactly reversible, which is a thing with scarves, blankets and afghans which are not always right side up/out. Its lovely to look at and the photographs are clear and the samples nicely styled (Jared Flood so no surprise there). The sample swatches are a neutral beige or off white plied worsted yarn that shows every stitch. This book is awesome. There is the bulky knit cabled cardigan to rule all cabled cardigans. so em.... the type is tiny and at a fixed size on the kindle - the digital version is very high resolution so it's easy to zoom in on the text and the charts on my iPad (or any of the larger tablets), but could be a problem for some people and it would not work on the black and white kindles. The size of the text would be an issue for me if I only had the printed version.

This guide for the modern knitter presents more than 150 new and innovative cable stitch patterns ranging from basic to complex and offers enlightening insight into how cables are engineered, how knitters can design their own, and how knitters can mix and match cables in a knitting pattern. Teacher, author, and master knitter Norah Gaughan shares her design principles and offers clear cable-making instruction throughout, always in a conversational, easy-to-understand voice that proceeds naturally, as one cable idea leads to the next. Master the art of cable knitting, then test your newfound skills with the 15 garment patterns for wraps, sweaters, and accessories. Also available from Norah Gaughan: Knitting Nature, Comfort Knitting and Crochet: Afghans and Comfort Knitting, and Crochet: Babies and Toddlers.

About the Author Norah Gaughan has served as design director for Berroco Yarns and JCA Yarns, designed for Adrienne Vittadini, and published patterns in all the leading knitting and textile magazines. She is the author of Knitting Nature, Comfort Knitting Crochet: Afghans, and Comfort Knitting Crochet: Babies Toddlers.
