Appealing DesignsBy rose thymeUsually when I check a book out of the library I can tell if it has enough interest for me to add it to my own bookshelf. I have not made any of the designs in this book so far, but there are several that I do want to make. That is how I judge, and I have so many knitting books which makes it difficult to find any with patterns that are not repetition. This book appealed to me personally, with a nice variety.8 of 8 people found the following review helpful. Love this book!By Miss PeabodyI am thrilled with this book! I want to make so many of the patterns! My Rav queue got much longer when I flipped through this book. There are 21 patterns, about half sweaters cardigans (one skirt) and half accessories, so an excellent blend of large small projects. Some of the patterns are preppy, several are rustic. The patterns tend toward the classic, but very wearable! (For reference I am in my 30s with a girly slightly preppy style.) I adored almost every single pattern, and that pretty much never happens. I highly recommend this book for intermediate to advanced knitters.1 of 1 people found the following review helpful. ... found this book in the library and fell in love with the patternsBy Mary Frontinofirst found this book in the library and fell in love with the patterns, if i had the time i would probably make all of them! my absolute favorite pattern in here is the cobblestone trench coat. im a hooded sweater snob (extremely

picky which is why i actually dont own that many) and i just LOVE the depth and shape of the hood on this sweater. and the fact its worked in worsted weight is even better for me since that seems to be the only weight i have in quantity at any given time

Fall is an ever-popular season for knitters, and with November Knits you can knit warm and stylish garments and accessories to make the season a little cozier. Popular knit designers and authors, Courtney Kelley and Kate Gagnon Osborn, join forces with all-star contributors, including Melissa LaBarre, Cirilia Rose, Cecily Glowik McDonald, Kristen TenDyke, and many more. Capture the essence of fall with 23 projects that range from casual cardigans and scarves to sweet, stylish wraps and sweaters. The book is divided into three moods: Farm Hands is the most casual design section, filled with rustic and durable garments to shield you through afternoons of brisk winds. Ivy League focuses on sophisticated and smart knitwear, featuring bold colors and classic styling. Southern Comfort is ideal for holidays and special occasions that call for slightly dressier garments, featuring elegant knitted lace. With knitted garments and accessories by expert designers, November Knits is a must-have resource this year.

From Booklist Many knitting books have a few good patterns, but in this one, with almost every turn of a page, crafters will find something that makes them want to pick up the needles. The premise is a bit convoluted. The title evokes the essence of fall and early winter, but the projects offered in three chapters Farm Hands (rustic yet stylish), Ivy League (classic New England), Southern Comfort (feminine and decorative) dont always seem to support the theme. That said, each project gets a lovely introduction, and the sweaters, scarves, socks, hats, and mittens are on display in crisply colored photographs, and some are helpfully photographed from different angles. The instructions are clear, and the schematics usefully placed. Theres bang for the buck here with more than 20 projects, all by up-and-coming designers, and all delightfully profiled. Knitters will return to this one again and again. --Ilene Cooper About the Author Courtney Kelley and Kate Gagnon Osborn co-own Kelbourne Woolens, distributors of the Fibre Company's unique artisan yarns.
