Baby Layouts with a TwistBy Ximena LobatoThis is a lovely book that shows how to scrapbook baby pictures beyond the traditional way of lace, soft pink or blue colors, and cute sayings. Many of the pages feature modern layouts, or layouts that show a different angle from the one we would expect. I'm planning the baby album of my two boys, now 6 and 4, and this book has definitely been an inspiration.0 of 0 people found the following review helpful.
