3 of 3 people found the following review helpful. Well written with useful information By Piaras I enjoyed reading this very educational and well written guide. Ive recently taken up picture framing as a hobby and found this well written guide to be very helpful. Its a nice guide that covers many aspects of setting up a picture framing business. For the moment, Ill just keep with learning from my many mistakes! Maybe someday soon I could make a living from this hobby. If I do decide to go down this road, Ill be referring back to this book! 2 of 2 people found the following review helpful. Informative and interesting! By Infinity9610 This book is very informative. It gives the reader a smart step-by-step process on how to get started with a broad and effective business idea. Richards points out very simple and efficient marketing strategies that will dramatically increase your chances of selling your product. Naturally these ideas can easily be used to market products other than picture frames. As an amateur in the business world, trying to successfully sell a product would be a great challenge for me. After reading this book and contemplating for a while, I feel like I have developed one or two home business ideas that I might give a try in the near future. I can only recommend purchasing this! 0 of 0 people found the following review helpful. All the information is in the description. By Bo Bolf all you want is someone to tell you "you can do it", then this book is for you. Word

This audiobook looks into the possibility of opening a home based business making beautiful 3D picture frames. 3D picture frames are uniquely designed, picture frames with various forms of embellishments used to create a work of art, that displays photos beautifully. It's a glimpse into the options involved, whether it is to be at a hobby level, a home business, or regular brick and mortar store. It delves into the aspect of creating your own unique embellished picture frames, designing your projects, and even marketing your finished product. The main focus is upon the creative aspect of this type of business. There are many reasons why people seek a home based business, and it highlights some of those reasons and benefits. It is outside the intended scope of this book to delve much into taxes, incorporation, obtaining startup capital, getting legal or accounting advice, market research, and creating a business plan, as each of these subjects can be extensive and are books unto themselves. There are however, resources listed to help point readers in the right direction to gather more data of the above topics, before proceeding. Due diligence is needed when considering any business to start up. If you're looking for a possible home based business, this is a good read to consider this avenue.
