ExcellentBy JTAs described: I was sceptical due to the price but it was just what we had hopped. An excellent bargain.0 of 0 people found the following review helpful.

great product to readBy PeteI would recommend this product to all train buffs that are starting out. It is a great book and easy to follow

A comprehensive guide that covers everything from how to begin to detailed landscaping techniques. This book will transport the hobbyist from the four walls of the room to a railroad empire. Chapters on construction of tables, electrical wiring and operating various transformers are also included.
