1 of 1 people found the following review helpful. Excellent pattern bookBy SmarteeLove this book and this author. Out of all my stained glass books, this is the ONLY ONE that includes full sized patterns in addition to the patterns themselves in the book. You can detach the patterns from the back of the book. The drawings/patterns are beautiful, simple but elegant. There are panels, lampshades, etc. This author is EXCELLENT and has free patterns available online too. Very nice book/layout/printing/overall great quality.0 of 0 people found the following review helpful. Beautiful patternsBy Mary LawrenceBeautiful patterns.
