7 of 7 people found the following review helpful. Extremely difficultBy HorseladyI wish I had listened to the reviewer who said this was difficult even for adults. I did origami as a kid, so I wanted to try it as an adult. The book says beginner and more difficult projects but doesn't identify which are which. I tried the very first project and it didn't come out right. Tried another one, and can't do it. The directions are very difficult to understand. I am going to get the papers and do it from the many free videos on you tube. There are alot of papers--that is the only good thing I can say about this kit.I'm extremely disappointed and frustrated. I thought this would be relaxing--it's not. Don't even consider this for a kid. I wish I had gotten the one that specifically said for beginners. This experience has really turned me off to the whole project. Don't waste your money unless you are already experienced in this craft.0 of 0 people found the following review helpful. Five StarsBy L AlvaMy daughter is in the 4th grade and had really gotten into oragami this year. She loves this paper.0 of 0 people found the following review helpful.
