Carol Endler Sterbenz, Carol Endler Sterbenz : Ornaments Creating Handmade Tree Decorations before purchasing it in order to gage whether or not it would be worth my time, and all praised Ornaments Creating Handmade Tree Decorations:

Because there was no opportunity to search inside the book before I purchased it, I took a gamble on it. I am a firm believer that the most treasured ornaments are those made by hand with love. The store bought ornaments are easily replaced and have little value; but those created by hand, often by loved ones, remain treasures for generations! This is why I ordered the book! However, it wasn't what I had hoped. I was disappointed that the book was described as very good, yet arrived only acceptable, with the jacket cover torn, and the book slightly bent. I would advise the seller to review the conditions before describing future books. I am considering

selling or trading this book, simply because only one ornament has proved to be the quality I demand in a homemade treasure. This book is written in small print, suggesting a college mind, yet the designs are juvenile, almost elementary. I often keep books that don't always arrive as expected; however, this one disappoints! 1 of 1 people found the following review helpful. Carol's Books are the Best! By Ann B. Sutter This author is so creative and technically good that anyone would throw away their fears of crafting and want to jump right in! I've been following her work for years and she never disappoints.

Hardcover with beautiful dust jacket. 2000 128p. 10.25x7.75x0.70. Creating handmade tree decorations. From little houses, fruits, and bugs-to clocks, snowflakes, and etched glass balls - there is something for everyone.

.com No matter how many ornaments crafters have amassed over Christmases past, they're bound to want to create new ones each year. The beautifully presented *Ornaments* by Carol Endler Sterbenz provides 26 stylish ideas for creating tiny treasures for the tree. Sterbenz--founding editor of the respected magazine *Handcraft Illustrated* and known for her elegant designs--tastefully glitzes up glass balls, star shapes, seashells, fake fruits, foil butterflies, even plastic fish. But she knows that a little glitter goes a long way, so the flashier constructions are tempered with such pieces as miniature curled-wire chandeliers and caf chairs, ethereal paper pine trees, diminutive red velvet slippers, and faux pocket watches that double as little time capsules. Good directions, pattern templates, and a source list round out this imaginative guide. --Amy Handy
