Janet Eadie : Painted Calico Dcoupage (Milner Craft Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Painted Calico Dcoupage (Milner Craft Series):

Painting on calico creates warm, soft edges reminiscent of fine watercolors, a gentle, muted quality that naturally draws the eye and cheers the spirit. These fifteen exciting projects use stencils, fabric paint and dcoupage to create beautiful painted cushions, a framed mirror, attractive lampshades, placemats, platters and much more. Topics covered include fabric preparation, outlining in paint or pencil, color floating techniques, special shading effects, framing your

artwork and creative solutions to common problems.
