Needs more tutorialBy SteelheartThis book is pretty good for the beginner although I would have liked more detailed instruction - there are good websites that offer short video tutorials that offer more than this book did. However, I do like the patterns that were included so for that it was worth the price of the book.0 of 0 people found the following review helpful. Lots of good informationBy Barbara P.Very instructional book.

Patterns for more than two-dozen projects include color guides, methods for applying lead strips, and instructions for preparing and painting Tiffany-like florals, classic cameos, and Victorian designs. Liven up a childs room with playful kites and kittens, decorate your kitchen with fruit motifs, or create a sunflower suncatcher...in minutes, no glass cutting required.
