Diane V. Maurer-Mathison : Paper in Three Dimensions: Origami, Pop-Ups, Sculpture, Baskets, Boxes, and More before purchasing it in order to gage whether or not it would be worth my time, and all praised Paper in Three Dimensions: Origami, Pop-Ups, Sculpture, Baskets, Boxes, and More:

1 of 1 people found the following review helpful. I changed my mindBy Daniel AtlanFor a while, I did not like most of the paper craft books, too "artsy", too "rosy" for my taste. Then I had the opportunity to browse through Maurer's book at the time I also bought a Silhouette robo cutter. Maurer's book was an eye opener; sure there are no patterns in the book, but instructions are clear, photos are informative, you move through most of what can be done with paper. This book has been on my desk since I got it and I am trying to work it through, having lots of fun in the process.11 of 11 people found the following review helpful. Good artistic selectionsBy Harry HollowayDiane Maure-Mathison does

a good job of putting together a nice selection of creative ideas with paper. She focuses on creativity and simple ideas that can be easily expanded. Her work on pop-ups which I was looking for covers the basics but does not go into the details of more complex design. 0 of 0 people found the following review helpful. Terrific idea book
By NancyLynnCovers a wide variety of inspiring media involving paper arts. This author is obviously a fine artist herself, but one who can teach and inspire others. Great directions!

Full range of paper-crafting techniques Author is an expert on paper art, with work in major museums Exciting, upscale projects From richly textured handmade paper to elegant pop-ups, *Paper in Three Dimensions* brings paper crafting to new levels. Author Diane Maurer-Mathison, a Watson-Guption favorite, uses the 3-D concept as a springboard to creativity, so her readers can do the same. The hottest paper-crafting topics are all here, including origami, pop-ups, paper sculpture, cast and handmade papers, dimensional sculpture, and boxes and baskets, each presented with fresh projects. Lavishly illustrated step-by-step directions make it simple to create an origami bowl with origami lilies; a greeting card in the shape of the Eiffel Tower; and a pop-up sculpture garden, complete with trees, gated walls, and flowers. Unusual and sophisticated, *Paper in Three Dimensions* is sure to delight paper crafters from the ground up, up, up!

About the Author Diane Maurer-Mathison's work is represented in major museums, and her product designs are manufactured by Godiva and Lenox China, among others. Her books include *Paper Art*, *The Ultimate Marbling Handbook*, *Art of the Scrapbook*, and *The Art and Craft of Handmade Cards*, all published by Watson-Guption. She lives in Spring Mills, Pennsylvania.
