Another great book from JDBBy Dianne L.I have bought several Paracord Fusion books written by JD Lenzen and have followed his paracord knotting instructions online for several years. I preordered Paracord Critters the minute I knew it was available, received it several days ago and am very pleased. His written instructions are precise and understandable and the pictures are colorful and beautiful. I would recommend this book to anyone of any age who is interested in learning paracord knotting.11 of 12 people found the following review helpful. My Newest TreasureBy Shirley De SchutterI love it, it's my newest treasure. The photo's are so beautiful and there sure are enough steps with clear photo's and a precise explanation.As a foreigner I had to get used to the knot terms, but they all are in his "Twist Terms" chapter, also very clear and right to the point, I got easily accustomed with them. :-)It also fits in my _okay, big_ purse, and some critters are great to use your scraps too, even T-shirt-yarn scraps :-D (with the T-yarn I had to change the head of the bumblebee, since cotton can't be singed, and glue in my purse is not an option: sewing back the ends of a two ends diamond knot makes the knot undone, but a one end diamond knot around an overhand knot of the other end works great) :-)O, and also be prepared to miss your book every now and then: people around you love to look at the beautiful pictures ;-)0 of 0 people found the following review helpful. Love my book!!!!By Lion-O JonesI'm loving my new book I'm starting to make my on keychains using paracord so I saw this book you can also make these with paracord as well I really I like it a lot keeps my mind on positive things.

Paracord Critters (PC) presents full-color step-by-step instructions for twelve animal shaped knots and ties, made with paracord. Featuring pieces carefully selected and designed by J.D. Lenzen, PC will capture your imagination and increase your knowledge of wildlife, through the joy of tying cord. A former naturalist and the originator of fusion knotting, Lenzen skillfully shows how to make a menagerie of paracord creatures that live underwater, on land, and in the sky--with each creation represented as a useful item (pin, key fob, necklace) or figurine.

About the Author J.D. Lenzen is the creator of the highly acclaimed YouTube channel "Tying It All Together" and the producer of over 350 instructional videos. He's been formally recognized by the International Guild of Knot Tyers (IGKT) for his contributions to knotting, and is the originator of fusion knotting--the creation of innovative knots and ties through the merging of different knot elements or knotting techniques. He lives and works in San Francisco, California.
