Kitty Fournier : Parrot Coloring Book: Nature Series before purchasing it in order to gage whether or not it would be worth my time, and all praised Parrot Coloring Book: Nature Series:

0 of 0 people found the following review helpful. and I love adult coloring booksBy baileel've been looking so long for a coloring book of just parrots, I have a Greenwing macaw, and I love adult coloring books, so I thought this would be great. I was disappointed upon its arrival to find that this is more of a children's coloring book than an adult one. There are no patterns if you like patterns, the parrots are bland and have no detail to color in. You have to add the detail if you want. The backgrounds are also extremely bland. The pages are one sided if you like to use markers, and there are about 20 different illustrations to color. Overall, it's subpar at best.1 of 1 people found the following review helpful. Three StarsBy Customersimple pics. Would say more for young kids.0 of 0 people found the following review helpful. Thumbs-upBy Melody C.Very nicely detailed The drawing are amazing.Enjoy coloring it.

People have enjoyed parrots for an untold number of years. They come in many bright, beautiful colors. Now you can

enjoy these gorgeous birds by adding your own, bright, lively colors, and bring them to life in your own way!
