**Jinny Beyer : Patchwork Puzzle Balls** before purchasing it in order to gage whether or not it would be worth my time, and all praised Patchwork Puzzle Balls:

0 of 0 people found the following review helpful. Great book, but slow deliveryBy Kelli HicksMy sister loved the book! I do wish it hadn't taken so long to get to her.0 of 0 people found the following review helpful. It feels like candle waxBy KarenThe book is what I wanted just a little unhappy with condition. There was something on it and looked as if someone took something and tried to scratch it off. It feels like candle wax. I thought I was buying a new book. I am happy with the book.0 of 0 people found the following review helpful. Very good and detailed instructions in this bookBy LaneGoing to try this, Very good and detailed instructions in this book.

Fun and quick to make, fabric balls are great for indoor play, for home-decor accents, for holiday ornaments, or as soft and cuddly toys for babies. The ten designs featured in this book include complete step-by-step directions and color diagrams to show how to construct and color each project. Easy-to-use templates take the math out of even the most complex of the designs, enabling crafters to create dazzling patchwork patterns that match up beautifully.
