Night of fun coloring for Halloween.By lgpyrytCute characters

Welcome to Penelope's Garden, a bewitching coloring book filled with FOURTEEN images of pumpkins, black cats, Venus fly traps, and tiny mice. Each image is featured TWICE, for a total of 28 pictures to color. Grab a cup of witch's

brew and settle down for a few hours of enchanting coloring fun. But beware! Penelope may cast a spell on you! Each of my books contain 12 to 15 images with NO repeat patterns. Each image is in the book TWICE so you can color it two different ways...or share! I try and create images that look very artistic when completed. My books are printed by Createspace, and I use the only white paper offered. Although the images are one sided, if you use markers it may bleed through so I recommend using a sheet behind while you color. My shop ArtbyDea in Esty features individual, downloadable images also. Have fun and keep on coloring!
