Mehry M Reid : Persian Carpet Designs (International Design Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Persian Carpet Designs (International Design Library):

2 of 2 people found the following review helpful. A black-and-white view...By Chess2016This book presents a perspective on the geometric designs and patterns of Iranian carpetry. It does what it aims to do. A person interested in the wealth of hues which make up a carpet from this part of the world might wish to look elsewhere.7 of 8 people found the following review helpful. No text as to what the different drawings refer to.By Alexandra AthanassiouThis is a softbound set of drawings of persian designs with no explanation whatsoever as to what they stand for. Is it intended to be a coloring book?

Serves as a source of varied Persian designs found in the rugs of Tabriz, Sarouk, Kerman, Saraband and other

traditional rug making areas of Persia.
