I downloaded a small sample on my Kindle and really liked what I saw. I like a real book when it comes to crafts, so I ordered this book. I absolutely love color and this book has a plethora of it on page after page. Right off the bat I found several projects that I wanted to make. The cute dollhouse is first on my list, followed by the wood box step up. I also have plans to make the menu plan frame among other projects. I would say that the majority of the projects are extremely budget friendly. If you already have scrapbook or patterned paper in fun patterns you are already ahead of the curve. Also, many of the projects can be done with your children which makes things all the more fun.I would highly recommend this book because the projects look easy, are beautiful, and super colorful. Who doesn't need more beauty and color in their life?1 of 1 people found the following review helpful. Fun creative projectsBy sothecooksaidA good craft or decorating project always leaves me feeling accomplished, creative and renewed. creative juices start flowing again. I plan to implement a version of a few of these crafts into my baby girl's room. I loved first looking at the projects and templates provided. Even someone who would not call themselves "crafty" would find success with this book. The easy-to-follow directions and provided templates are the perfect jump start many wanna-be crafters would need. The book is full of step by step pictures, as well, to guide in the execution of the projects. The crafts are practical and useful. The supplies mentioned are easily obtainable. I found myself thinking how I could re-make a few of these projects myself. They are all presented in a way that allows the reader to either follow step by step or make it their own. I received this book for free from Blogging for Books for review. 2 of 2 people found the following review helpful. Love these ideas! By Michelle I love the Petit Collage website and products and was thrilled to see this new book that shows how to get their fun, folksy look in my own home. Author and artist, Lorena Siminovich, shares complete instructions for twenty five of her companys bestselling products. I love the bright and happy colors and patterns that are such a big part of her line of products. The focal point of Petit Collage is learning how to see with new eyes and find inspiration in everything. I found the crafts are really simple and use easy to find materials like craft or scrapbook paper, scissors and craft knife. A couple of my favorites were the colorful Bird Growth Chart and also the Friends Coat Rack with cute round noses that hold up the coats. Very fun ideas!
