Sandy Griffiths : Pewter Jewellery (Twenty to Make) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pewter Jewellery (Twenty to Make):

Pewter is a soft metal that has been used decoratively for hundreds of years and has enormous versatility and potential for contemporary crafters and jewellery makers. It's relatively cheap to buy; is soft, malleable and easy to use; and requires very little in the way of equipment or skill.This book contains 20 simple, easy-to-make jewellery pieces,

including brooches, necklaces and bracelets, all based on the simplest technique for embossing sheet pewter - low-relief embossing. The pewter is combined with semi-precious stones and beads; glued to other materials such as wood, plastic and little scraps of fabric; and coloured with glass paints, giving the finished pieces a bright, colourful, contemporary feel. Each project is accompanied by a beautiful, full-colour photograph of the finished piece; clear, step-by-step instructions; lists of the materials and equipment needed; and templates (where required). Two versions of each project are included, each made by following the same step-by-step instructions but by varying the embellishments, materials or colours used.

About the Author Sandy Griffiths is an experienced crafter who has taught several crafts for many years. She started working with pewter some years ago and is largely self-taught, building up her skills through experimentation and 'trial and error'. She now teaches a regular course at her studio in Cape Town, S. Africa. She has written a number of pewter craft books including *Pewter It* and *Pewter Impressions*, both published by Metz Press.
