From Harwood Academic Pub : Physicochemical Biology Reviews: 1984 (Soviet Scientific Reviews, Section D) before purchasing it in order to gage whether or not it would be worth my time, and all praised Physicochemical Biology Reviews: 1984 (Soviet Scientific Reviews, Section D):

1984, hardcover edition, Soviet Scientific Reviews / Harwood Academic Publishers, Chur. In English throughout. 334 pages. Figures / graphs / tables / references throughout. Please note: This is a technical work, volume 4 (1984), edited by V. P. Skulachev. Contained herein are essays / articles written in Russian by a Soviet expert in the field, then translated into English. Specific subjects here include: cultivated cells of higher plants; the role of cyclic amp in cell regulation; levels of the structural organization of chromosomes; and others. The authors who contributed to this volume deal chiefly with molecular and cellular biology. Please note: this series of titles can be somewhat confusing. They are published each year with subject material in different sections. This section, section D, covers the material indicated herein.
