A labor of loveBy CustomerI don't think I could ever make this quilt without a team of people but I just thoroughly enjoyed reading through this whole book. There are a lot of projects you can make with the applique for each of the 12 months (the main quilt project in the book is a 12 month perpetual calendar, one block per month based on paper piecing). All the contributors are super talented and very generous, sharing lots of free patterns and projects on their blogs online. I think this was a collaboration between quilters in Japan and the US so I thought that made the book extra special, with the mix of different fabrics etc.3 of 3 people

By Elsa Adaline Hart  
All the projects in this book are wonderful, great instruction for each one. I happen to love paper piecing and it's so nice to have modern and really cute projects to make. I took it with me to a sew day I do with friends and everyone was gushing over it ~ I may have converted a few people in my group that don't like to paper piece!

The patterns are wonderful and easy to mix and match. I like the versatility and the clear directions. It's a great book to have in any quilting library.

Compilations are one of our favorite types of books because we get to see one thing presented in many different ways by some of the most talented peeps in our industry. And boy, do we love this one!  
Tacha (co-founder of Fat Quarterly Magazine) tackles paper-piecing, a wonderful technique that enables quilters to accurately piece detailed blocks. But many of us find ourselves terrified of this process because it's counter-intuitive to how we normally piece. We urge you to let yourselves be guided by her simple instructions and the book's clear illustrations. Once mastered, paper-piecing will open many design doors for your quilt efforts.  
Tacha works with 12 different block designs which are first featured in a calendar quilt. Then, she hands each block to a different designer, who creates a completed project using the block. There are bags, a game board, home dec items and even a chair cushion! Designers include Cheryl Arkison, Daniel Rouse and Amy Lobsinger. The book also comes with a CD with all of the block patterns waiting to be printed. (Generation Q Magazine, March/April 2014)
