Ken Blackburn, Jeff Lammers : Pocket Flyers Paper Airplane Book: 69 Mini Planes to Fold and Fly (Paper Airplanes) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pocket Flyers Paper Airplane Book: 69 Mini Planes to Fold and Fly (Paper Airplanes):

25 of 25 people found the following review helpful. 1/3 directions 2/3 paperBy A CustomerThe description of this book was not clear to me when I bought it. (I am an origami person, not really an airplane person.) There are directions for 12 airplanes and (about) 6 pages of paper for each plane. The pages are marked with fold lines and numbers. They are printed with bright, vivid, interesting designs on both sides of the paper. With multiple pages for each plane, this would be a great book for sharing with several kids (or adults) all making planes together. The only reason I subtracted one star is that after all the preprinted paper is used up, the instructions are mostly useless. The instructions are like "fold on line 4" which is only useful if you have the preprinted paper.0 of 0 people found the following review helpful. I was hoping for something like the 365 day airplane calendar from these guysBy Sherri L. CunninghamI was hoping for something like the 365 day airplane calendar from these guys, which was more awesome. This is the best available, but not perfect.0 of 0 people found the following review helpful. Five StarsBy KimGiven as gift. No complaints!

Welcome to the world of miniature aviation. Its entertainment on the fly for the office, backyard, classroom (dont get caught!), or anywhere there might be a party, featuring 12 Lilliputian-size models that create 69 planes altogether. From the Skyhawk to the Saber, Phoenix to the B-2 Buzz Bomber, these inimitable flyers are vibrantly colored and gorgeously designed. Fold up the Gargoyle, which excels at loops and dives, and the Concorde 500, modeled after the fastest passenger plane ever built. Includes step-by-step folding instructions and tips on how to send each plane soaring at its full aerodynamic potential.

From the Back Cover **HUMMING AND BUZZING** From the Gargoyle to the Saber, Fierce Phoenix to the Whispering Dragonfly Welcome to the world of miniature aviation. For the office, den, hallway, classroom (don't get caught), or anywhere there might be a party, here are 12 Lilliputian-size models - with 69 planes altogether - designed with screaming full-color graphics. Includes individual folding instructions and flight adjustments, plus special tips on the aerodynamic challenges of flying smaller craft.
