Mary Maguire : Wire (Craft Workshop) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wire (Craft Workshop):

The stunning potential of wire is showcased in the first section of this book where beautifully photographed pieces by contemporary artists are presented.

About the Author Mary Maguire studied Fine Art and Textiles at Goldsmith's College, London, and gained an MA at the Royal College of Art in Metal work and Jewellery. Since then she has continued to develop and exhibit her work in various different media. Mary has written widely on crafts, including Wirework, Polymer Clay, Shells and Sticks and Stones.
