I love Fig Tree and this book does not disappoint. My color palette is similar to the author's so I love everything in this book that she has designed. Although there are no "new" objects - aprons, pillows, all manner of home furnishings - the individuality comes in using your own color palette and making it yours. I loved the author's sharing of her own story and her encouragement to find your own and use your own story. I will use this book regularly now - it's good for the beginner and experienced sewer or quilter alike. A must have for the library!1 of 1 people found the following review helpful. Beautiful book. Long-time quilters, committed to their craft for decades, are starting to experiment with a bit of home sewing or simple sewing for their grandchildren. With Fabric Thread seamlessly bridges the language and intimidation gap between these two crafts and delivers a unique collection of projects that appeal to sewers and quilters alike. Featuring 20 new projects, With Fabric Thread marries the nomenclature of both sewing and quilting to create an effortless set of instructions that anyone can follow.
