Lorenz Books : Wreaths Garlands: Enbhtaking Displays with Fresh and Dried Flowers before purchasing it in order to gage whether or not it would be worth my time, and all praised Wreaths Garlands: Enbhtaking Displays with Fresh and Dried Flowers:

Following the calendar year, this book presents 30 beautiful designs from a summery celebration to an unusual kissing ring of mistletoe and winter berry.'

.com This slim volume presents some lovely ideas for wreaths, garlands, swags, and rings of flowers, herbs, foliage, and other naturals. Most are fairly traditional, though nevertheless attractive (a heart of roses or wheat, a cascade of evergreens), but some are unusual (a circle of globe thistle and mussel shells, a ring of pressed autumn leaves, a crescent moon of golden seed heads). Most of the projects are completely identical to those in Barnett and Moore's Complete Book of Garlands, Circles Decorative Wreaths, so there's no need to own this one if you've got the other, but this is a nice little guide if you want a less-comprehensive approach. --Amy Handy
