I paid like five whole dollars and there is just page after page of things to color mostly girls that are like on the cover.. then some mandella's thrown in the mix and they are single sided so you won't get a bleed thru but as always if your going to use makers always put some cardboard down on any coloring book.. so many pages and so many girls I was shocked how amazing it was for the price I thought It would be just a few pages nope it was a lot for your money.. for once I was speechless truly worth every penny I so recommend this. I guess I should find a way to show these. really pretty you won't regret this purchase.. and beautiful art work just going to say love love love love love..0 of 0 people found the following review helpful. Fun Lovely Coloring Book! Tons of

unique pages
By Samantha Dear I love this coloring book! LOTS of pages, I still haven't finished mine (after about a year!). Pages are all great quality, decently thick stock, and 1-sided - perfect in case of slight bleed-through (if you use pens or markers, or if you want to take out a page put it on your wall!). All the Nature Girls are so creative!! Friendly smiley girls with plants, flowers, birds, animals and all sorts of gorgeous textures. There aren't any 'duplicate' pages, like the previous review said. There are similar "Nature Girls" images - one may have less detail (so you can fill in the blanks YOUR way!) or different detail... fun to explore and see how the 'same' underlying image can turn out so differently, depending on how you color it... Also, the pages with writing on them also have drawings that you can color, and they are mostly 'chapter' dividers (one says Mandalas, for example, and has pretty borders and hearts to color in). Plus - Bonus pages are included at the end as 'try-out your supplies' pages! With suggestions on how different materials might give different results (and extra tips on how to make the most of soft pastels if you want to try THAT). Overall such a lovely coloring book that gives you the freedom to color create your own masterpieces. :) 0 of 0 people found the following review helpful. The best coloring book so far!!!!
By Randy Brown This coloring book is a work of genius. Perfect. Easy to fill in. The drawings are detailed and interesting. This is the best coloring book I have ever purchased, out of the 30 or so books I have. But what makes this the best, is the end result. When the pages are colored in they are gorgeous!!!! Lots of pages. Lots of variety, and I framed two of them. The best coloring book so far.

The illustrations in 'Zen Doodle Coloring Book: Nature Girls' are original works of art created by artist Judy Brown. All illustrations were hand drawn and then recreated in a vector format assuring that ALL LINES ARE CRISP AND CLEAR, never blurry. This book includes 30 different Nature Girl faces, 16 mandalas, a practice section with 10 pages of designs (try out different mediums, practice blending or experiment with color combinations) 2 bonus illustrations. Positive quotes and words are included in many of the designs. Designs are printed on one side only, so bleeding through is not a problem. Always place a blank sheet of paper behind the page you are working on. All pages can be trimmed to fit a standard 8x10 frame (template included). Perfect gift for ages 8 and up.
