Pat Ferguson : Zen Quilting Workbook, Revised Edition: Fabric Arts Inspired by Zentangle(r) before purchasing it in order to gage whether or not it would be worth my time, and all praised Zen Quilting Workbook, Revised Edition: Fabric Arts Inspired by Zentangle(r):

2 of 2 people found the following review helpful. Good starterBy L. GwinI am new to zen quilting. This book is what got me started.2 of 2 people found the following review helpful. Three StarsBy LauraThe Book needed more details.0 of 0 people found the following review helpful. Meh. Doodle doodle doodleBy Kindle CustomerI was tempted to give this a 2-star review. Why? Well, first it is \$18.99 for a 34 page booklet. Uh. No. Library works!"Zen Dahlia" is what turned me on to Pat Ferguson's work. A large, whole cloth quilt, the work is absolutely amazing. So, I decided to look

her up. Now, this is not a "quilting book" per se. Yes, there are directions for how to make a quilt out of your black-and-white drawings. And her work is really beautiful. But this is, first and foremost, a drawing manual. A good enough one, based on continuous line drawing for quilting, but it is all about drawing. If that interests you, check it out at the library before spending this much money on it. I have a lot of time spent doodling - if you don't this will help you learn how.

Pat Ferguson, certified Zentangle teacher and master quilter, merges Zentangle with free motion quilting. *Zen Quilting Workbook* shows how to produce unique continuous line designs that are easy to execute. From developing a design concept, to quilting through layers, to finishing the quilt, Pat guides the reader through each step, insuring successful completion. This valuable book includes Pat's own original patterns as well as amazing new designs created by her students. The relaxing Zentangle process turns simple patterns into artistic design. The Zentangle method helps anyone get in touch with life, solve problems, and turn mistakes into positives. This book offers a quilting adventure that stimulates creativity while soothing the soul. Readers will discover the bliss of stress-free quilting as they experience the relaxing, repetitive concepts of Zentangle.

About the Author Pat Ferguson is a certified Zentangle teacher (CZT) and an award-winning quilter/teacher/artist. Pat began quilting in 1980 and has been teaching classes, presenting trunk shows, and machine quilting professionally since 1985. She was a contributor to the book *Zentangle Fabric Arts* from Design Originals. Pat was raised in a small rural town just a few miles from Maria Thomas and Rick Roberts, the creators of Zentangle, with whom she visits regularly to share experiences.
