Harry Pristovnik, Virgil Suarez : *Zombie Hunterz: Post Apocalyptic Fantasy Models* before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Zombie Hunterz: Post Apocalyptic Fantasy Models*:

2 of 3 people found the following review helpful. More of a coffee table book than a modelling book By E. Kervina This book is almost completely two-page spreads of a bunch of finished models. Expect two or three photos of a model, maybe a short paragraph explaining what it is, and then, turn the page and a new model is featured. I was expecting more information on techniques, maybe something like six or eight pages per model showing a build process or how a particular effect was achieved. If that is what you are looking for, this is not the book for you. I can't mark the book down too much for not being what I expected, though, because for what it is, it's pretty good. There is a lot of inspiration in the book, but very, very little on techniques. At the back, there is a 12-page "case study" of a build, but other than that, you will be looking at photos of other people's finished work. Beautiful work, don't get me wrong! But this is more of a coffee table book than a modelling book. 0 of 0 people found the following review helpful. Styrene Eye Candy!!! By C72A wonderful book full of inspiration for any car modeler. 0 of 2 people found the following review helpful. Five Stars By T May Wonderful model car book... I'm even featured in it myself. :)

"Zombie Hunterz" is a collection of scale model automotive "zombie hunter" and post-apocalyptic vehicles, showcasing the incredible imagination and talent of scale model builders from around the world. Filled with hundreds

of full-color photos of some of the wildest, most creative model cars you'll ever see, "Zombie Hunterz" takes you on a tour of the dark side of some very talented and imaginative model builders. If you like model cars with an edge, if you like creativity and artistic expression, this is the book for you!
